Welcome to ScopeChat -- the local social app where you can tell a secret to ONE or MANY in your defined radius and it is still considered a secret because no one knows who told the secret, developed by Adaptive Schemer LLC. ("ScopeChat," "we," "us" or "our").

This privacy policy explains how we collect, use and disclose information about you when you use our mobile application (the "App"), our Web site (the "Site") and other online products and services that link to this privacy policy (collectively, the "Service"). By using the Service, you consent to our collection, use and disclosure of your personal information as described in this privacy policy.

Through the Service, you can anonymously share messages, pictures, videos, comments and other content ("Posts") with other users of the Service. You may also send private messages directly to another user ("PrivPosts"). When you share a Post through the App, you are anonymously sharing your Post with users within a radius (the "Radius") you have selected for your mobile device, these users (your "Radiuses") are also registered with our Service. You can send and receive Not Safe For Work messages (the "NSFW") or you can choose not to receive NSFW Posts at anytime you desire. Through the Service you may block Posts from any user within your Radius simple by pressing the sad faced "Block This User" button.

For more information about the Service, please see our [FAQ page](#).
